TouchOne | G3

Introducing the next generation in purpose built wall mounted touchscreens for home, office and retail / hospitality.

TouchOne G3 is the latest generation in touchscreen technology that has been purpose built to be wall mounted in your home, office or shop, making it a much more aesthetically pleasing, cost effective and reliable solution than an off-the-shelf consumer tablet. Now running Android 10, a 64-bit processor, double the RAM and available in 3 colour options, TouchOne will suit any environment, for any use.

Gorgeous 7" HD Display

With a resolution of 1280x800 packed into a 7" IPS display, TouchOne can be seen clearly, from almost any angle.

Ultra-Reliable

TouchOne includes our custom engineered PI-1 microcontroller to give unmatched reliability and uptime.

Purpose built for mounting

TouchOne is engineered from the ground up to be mounted without an ugly and convoluted tablet mount.

Incredibly easy to install

TouchOne runs on a safe low voltage 12V supply and can be installed with only a few screws.

Beautifully thin

TouchOne is less than 14mm thin and surface mountable. Easily mount it to block, brick or concrete walls.

Fluent in communication

With WiFi 802.11b/g/n and Bluetooth 3.0/LE built in, TouchOne will talk to most technology in your home.

What TouchOne can do for your environment

Security

An easy to use, beautiful and multi-functional touchscreen keypad that can be wired to an existing, compatible security system through IP or bus wiring.

Cameras

Have piece of mind by being able to see what's going on 24/7 with an always-on, easy to see CCTV monitor, securely mounted in one place.

Video Doorbell

See and do more than your traditional intercom screen with TouchOne's beautiful HD display, fast processor and ability to run other apps.

Home Intercom

No more shouting across the house when dinner's ready. TouchOne can be used as a room to room intercom.

Music

Create a centralised controller for the music around you. TouchOne is the perfect interface to manage music for your family in your home or staff in your office or retail store.

Smart Lighting

Finally, a light switch that's better than a light switch! Anyone can effortlessly switch/dim or adjust colour for all of the smart lighting in your house from a centralised user interface.

Centralised Home Automation

TouchOne provides anyone in your house, quick and convenient access to your smart home system, that's also so cost effective, you can put one in every room!

Commercial / Retail Automation

Provide an intuitive and centralised controller for staff to control lighting, audio, and other smart technology in your office or retail store.
