

Em Rex Cover

TROJAN DEVELOPMENTS

Cover for use with Emergency Exit Device - Monitored

The Em Rex Cover is for use with the Em Rex® unit to deter unintended or malicious activation of the unit when it is installed in a public area. The monitored version has two outputs, which can be used to monitor the operation of the cover.

Features:

- ▼ Designed to complement the Em Rex unit and comply with local codes for emergency egress
- ▼ Two outputs; one set for local audible indication and one set for status monitoring
- ▼ The Em Rex Cover is secured behind the Em Rex® unit to prevent removal
- ▼ The cover is designed to latch closed so as to make the operation of it a deliberate action
- ▼ The cover is made of polycarbonate so as to withstand long term operation without any deterioration.
- ▼ Weather resistant for external use
- ▼ Minimal moving parts
- ▼ Text and graphics will not deteriorate over time and the unit is easily cleaned

Specifications:

- ▼ Overall dimensions; 92mm (w) x 153mm (h) and fits a single gang electrical flush box
- ▼ Switching voltage max is 30Vdc, 200mA
- ▼ Output for connection to the Em Rex® for audible indication
- ▼ N/C output for status monitoring (opens on activation)
- ▼ Patent Pending

Order Options:

- ▼ Em Rex Cover/MON
