

# **UHI-OG(S)-0 Indoor Camera Housing**

The Indoor Camera Housing is a smartly styled unit, intended for use inside. This housing is both cost-competitive and installer-friendly.

# **Functions**

# **Easy installation**

The unique, hinged, side-opening design provides easy installation of all camera/lens combinations, and allows access to most camera and lens controls when the housing is mounted. Route power, video, and lens control cabling through the liquid-tight fittings in the bottom rear of the housing, or for even better cable management, via the feed-through entry holes in the base. Mounting holes in the base permit installation to a wide range of pan/tilts, adjustable heads, and various camera-mounting brackets.

# **Dinion ready**

This housing supports installation of Dinion style cameras with fixed focal, varifocal, or up to a 15x motorized zoom lens.

## Secure

For increased security, the units come with tamperresistant screws for the locking clasps to prevent illegitimate access to the housing contents. The housing is an optimal solution for protecting your indoor video surveillance applications.
